Introduction to Cybersecurity

SUDIPTO GAYEN

Passionate about Software Development || Full stack developer (MERN) || Cyber Security Enthusiastic

Kolkata, West Bengal, India

Summary

I'm a Full-Stack Software Developer passionate about building secure, scalable, and user-focused web applications. My expertise lies in the MERN stack (MongoDB, Express.js, React, Node.js) along with a strong foundation in JavaScript, modern JS libraries/ frameworks, and SQL, as well as NoSQL databases.

I enjoy architecting end-to-end solutions—from designing efficient database schemas and building REST/GraphQL APIs to crafting dynamic, responsive frontends. With a growing interest in cybersecurity, I integrate best practices like OWASP standards, secure authentication (JWT/OAuth2), and data protection into many projects.

Experience

AILABS
Back End Developer
June 2025 - July 2025 (2 months)
Salt Lake, West Bengal, India

DataSpace Academy
Summer Intern
July 2024 - July 2024 (1 month)
Salt Lake City Metropolitan Area

Banao Technologies
Business Development Associate
January 2024 - May 2024 (5 months)
India

Education

The Neotia University

Bachelor's degree, Computer Science Engineering with Specialization in Cyber security · (July 2023 - July 2027)
